**CUSTOM  
MADE SHIPPING  
CRATES**

# TECBOX INT.

We design and manufacture shipping crates in all sizes and forms, based on customer specifications. Our current focus is on the high-tech/aerospace industry. We have over 20 years business experience and are known for quality, high service level and customer dedication.

Beside certified wooden crates, we are in the process of setting up a new product line for solid strong corrugated cardboard crates.

# WOOD

- Quality German engineering
- 100% customer satisfaction guarantee
- Individual custom design
- Fast turnaround time

## Your custom made shipping crate will:

- Conform to Canadian Food Inspection Agency (CFIA) regulations for International (cross-border) shipping
- Meet CWPCP - Canadian Wood Products Certification Program ISPM No. 15 requirements
- Provide Peace of Mind Safe and secure containers

# CARDBOARD

This cardboard crating system has a range of key advantages over other packaging systems in the market:

- Cost effective in lower quantities
- Completely pre-assembled (use right off the shelf –no assembly time)
- Side-walls folded and stored in the crate (reduced storage space)
- Strong and very solid cardboard material
- Cushioning Spiral Feet, linked with nailed railings, to reduce vibration and make them easy for forklifts
- Already used in the aerospace industry in the US (e.g. suppliers to Northrop Grumman, GE Turbines)
- US Department of Defense (DoD) approval
